Bedantika Mondal

Second-year B.Tech CSE student specializing in Artificial Intelligence and Machine Learning

+918777416089 mondalbedantika07@gmail.com LinkedIn GitHub Website Howrah, India

PROFESSIONAL SUMMARY

Second-year B.Tech CSE student specializing in **Artificial Intelligence** and **Machine Learning**, with hands-on experience in AI-assisted applications, web development, and hackathon projects. Proficient in **Python** and **C++**, with growing experience in **DSA**, machine learning, and modern frontend development.

EDUCATIONS

Techno India University | Kolkata, West Bengal — Sep 2025 - May 2029
B.Tech in Computer Science and Engineering — *CGPA : 9.16/10*

- **B.Tech in Computer Science and Engineering**, Specialization in **AI & ML**, Semester 1 SGPA: 9.16/10

PROJECTS

Nikot-e-Metro – Kolkata Metro Navigation Platform — Aug 2026 - Present
Role : Developer | Individual Project

- Developed a location-aware Kolkata Metro navigation platform integrating **4 metro lines** with nearest-station discovery, landmark-to-station navigation, and interchange-aware journey planning.
- Implemented a graph-based transit network for station and route modeling, combined with interactive geospatial navigation and bilingual station information.
- Built map-based user interactions for location search, station discovery, route visualization, and interchange handling.

Technologies / Tools Used : *Next.js, TypeScript, MapLibre GL, Tailwind CSS*

Aptly – Explainable Job Eligibility Platform | △ Vercel — Aug 2026 - Present
Role : Developer | Individual Project

- Built a job eligibility platform that compares candidate profiles against job requirements using matched, partial, failed, and unknown categories.
- Designed explainability features for identifying skill gaps, resume fit, strengths, weaknesses, and actionable improvement areas.

Technologies / Tools Used : *React, AI-Assisted Analysis*

Finora – Multi-Agent Personal CFO | △ Vercel — Jul 2026 - Aug 2026
Role : Concept Creator & Product Ideation | Team Project

- Built a multi-agent personal finance platform with **seven specialized agents** for Budget, Affordability, Loans, Bills, Investments, Tax, and Fraud analysis.
- Designed an orchestration workflow with recommendation, validation, revision, and synthesis to improve **explainability of AI-generated decisions**.

Technologies / Tools Used : *React, JavaScript, TypeScript*

SKILLS

Databases :	Supabase, MySQL
Frameworks & Libraries :	React, Next.js, Tailwind CSS, Framer Motion, GSAP, Three.js, React Three Fiber, MapLibre GL
Languages :	English, Hindi, Bengali
Programming Languages :	Python, C++, C, JavaScript, TypeScript, HTML, CSS, Java
Soft Skills :	Communication, Leadership, Teamwork, Adaptability, Time Management, Problem Solving, Collaboration, Decision Making
Tools & Platforms :	Git, GitHub, VS Code, Jupyter Notebook, Kaggle, Vercel
Core CS :	Data Structures and Algorithms, Object-Oriented Programming Language

HACKATHONS & TECHNICAL ACTIVITIES

- Participated in collaborative hackathon development involving **AI-powered financial systems** and **multi-agent architectures**.
- Regularly build, version, deploy, and iterate on projects using **GitHub** and **Vercel**.
